

Maneuver Training Area, Light Forces. FAC: 1741

CATCODE: 174123

OPR:

OCR:

1.1. **Description.** Space for ground and air combat forces to practice movements and tactics as specified in the unit's Army Training and Evaluation Program (ARTEP). Different type units may work in support of one another (combined arms), or a unit may operate on its own to practice a specific set of ARTEP tasks. The "light" designation refers to areas where maneuver may be restricted for some reason to only small units or units having only wheeled vehicles. "Light" maneuver/training areas are not typically used by "heavy" forces other than assembly areas where movement is restricted to roads or trails. Included in this category are bivouac sites, base camps, and other miscellaneous training areas. Account for each area-typically managed and scheduled by an alphanumeric code through the garrison training or range control manager (for example, DPTM or DPTM-equivalent)-with a separate facility number and individual real property record.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
