1.1. **Description.** This facility is a "second-hand store" operated by a private organization where military members buy and sell used apparel and used household furniture, furnishings, and equipment.

1.2. **Requirements Determination.** Space allowances are given in **Table 1.1**. For installations with military strength greater than 2,000, the space requirement varies according to the on-base population.

1.3. **Scope Determination.** To find the maximum space requirements, multiply the appropriate **Table 1.1** scope by the population adjustment factor given in **Table 1.2** that corresponds to the installation's on-base population.

1.4. **Dimensions.** See **paragraph 1.3**.

1.5. **Design Considerations.** Contact OPR for additional information on design criteria.

NOTES:

1. Total customer base is defined as active duty military personnel assigned to the installation plus 50% of dependent personnel and 10% of retired military supported by the installation.
2. DoD civilians assigned to overseas facilities are to be counted as active duty strength for facility sizing purposes (including Alaska and Hawaii).
3. Because of higher utilization of overseas facilities, consider adding 5 to 10 percent to the authorized scope for these facilities (including Alaska and Hawaii).
