

VA STANDARD SECURITY DOOR TYPES

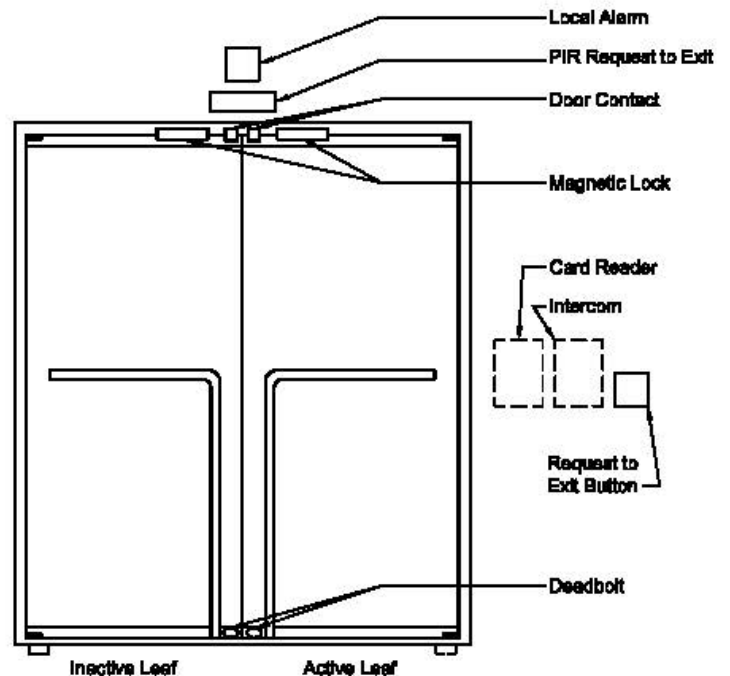

Door Type A - Single Opaque or Framed Glass Door

Door Type C - Pair of Opaque or Framed Glass Doors

Door Type B - Frameless Single Door

Door Type D - Frameless Pair of Doors

- Notes:
1. Size and location of glazed areas are diagrammatic. Actual dimensions and location shall comply with applicable codes, regulation, guidelines and specific project requirements.
 2. Hardware devices shown are diagrammatic. Not all devices are required for all doors. Refer to the Security Door Matrix and Security Door Opening Schedule for required components.
 3. Doors are shown from secure side. Dotted line identifies devices located on the unsecured side.
 4. Panic bars shall be integrated with magnetic lock release.
