a. The Veterans Services program operates through a wide network of veterans services field locations where personnel provide veterans, their dependents, and survivors with information, advice and assistance regarding the availability and procurement of benefits under laws administered by the Department of Veterans Affairs (VA) and other agencies. Benefits information and assistance are provided by personal interviews, telephone interviews and correspondence. Services include arrangements with the Armed Forces to ensure that personnel approaching separation from military service are informed about veterans benefits and how they may be obtained. Services also include extensive outreach efforts to ensure that benefits information and assistance are provided to the educationally disadvantaged, the disabled, the elderly, former prisoners of war, female veterans, the homeless, and other specially targeted groups. Program activities are conducted at 58 Veterans Administration Regional Offices, 18 Veterans Assistance Offices, 172 Department of Veterans Affairs (VA) Medical Centers, 6 Department of Veterans Affairs (VA) Outpatient Clinics, and 57 itinerant locations. To assist those veterans, dependents, and survivors residing some distance from the regional offices in obtaining benefits information and assistance, toll-free telephone service is provided nationwide.

b. Veterans Services personnel are also responsible for overseeing through a system of field examinations and audits of fiduciary accounts, the payment of VA benefits to those payees who are rated incompetent or are under legal disabilities.

c. In addition, program staff are responsible for verifying and assuring the propriety of payments of educational benefits to eligible individuals under provisions of the laws administered by VA (including Title VI of Civil Rights Act of 1964, Title IX of the Education Amendment of 1972, and Section 504 of the Rehabilitation Act of 1973) through a system of education liaison, program approval, and compliance survey activities.

5. OPERATING RATIONALE (or BASIS OF CRITERIA)

These criteria were developed in concert with the Veterans Benefits Administration. They represent an input from the field, program officials and central office personnel. They also represent a distillation of many factors: existing VBA facilities, correction of space inadequacies, technological innovations and projected program requirements.

It is recognized that VBA functions, requirements and the physical variations of buildings will cause deviations in determining the amount of space assigned and its division into private, semiprivate, open areas, or other uses.

6. DESIGN CONSIDERATIONS

- a. Provide private rooms for the Division Chief, Assistant Division Chief and Telephone Unit. All other areas will utilize the open office planning concept.
- b. The Telephone Unit must be soundproof.
- c. The Veterans Services Division should be located in proximity to the building's main entrance.
- d. The telephone equipment will be included in gross space.
- e. The Storage area will utilize cabinets and shelving units as part of the open office area, in lieu of a separate room.
